Skills

React | Redux | ES6 | REST API | HTML5 | CSS3 | NodeJS | Express | Massive | PostgreSQL | Recharts |
Material-UI | A-Frame

Projects

Agent Real Estate Page - Solo Development (www.equitylisa.now.sh) *React, Node, Redux, Massive, Express and Auth0 for authentication*

- Background animation done with keyframes across the site.
- Goal was to drive contact with agent, leading to developing that ability through both front/back end.

Project Management SaaS - Group Development (27projectmanagement.com) *Auth0, React, Redux, Node, Material-UI, RESTful API, Express, Massive, PostgreSQL, Recharts, as well as a customized node module for our modals.*

- Built a large scale project management app focused around projects, teams, users, and tasks.
- Integrating so many technologies that didn't want to work together was a challenge which was overcome using paired programming to put more eyes on potential conflicts.
